# We want to test two new fire-ant poisons.

Site 1 Map for Fire Ant Sampling Assignment

Site 2 Map for Fire Ant Sampling Assignment

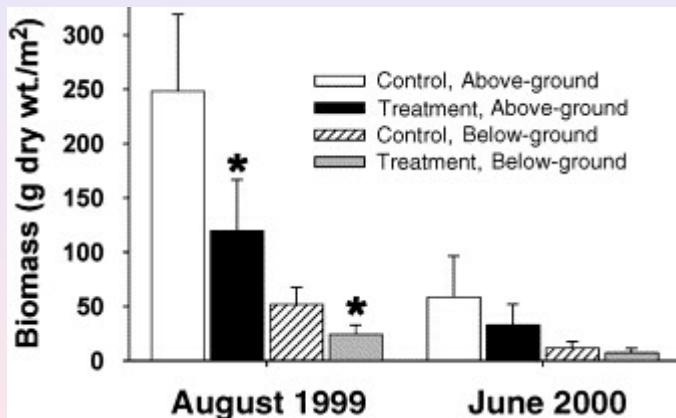

How? What are potential problems?

# Treatments: The two poisons

How can we tell what works best? What interferes?

## Control: An untreated site

[Article on clam-harvesting effect on eel grass](#)

# Now design your own study

- What is your problem?
- What are your treatments?
- What is the control?
