

Lab 03: Trip to Crystal Lake Cave

EVS 248 Environmental Geology and Hydrology

Fall, 2011

Today's lab focuses on going underground. We will Crystal Lake Cave near Dubuque Please prepare and submit on Moodle the following items, to be completed before the beginning of next week's lab.

- What are three types of cave formations? Include photos.
- What age rocks is the cave in?
- What is the difference between a dry cave and a wet cave?

For those who are unable to go on the field trip, your assignment is to find four sites in the Dubuque area damaged by the summer's flooding. Upload to Moodle annotated photos of each.
