Subject: bulk EVS email

Jesse,

How's the following for an email to prospective EVS students?

Dear XXX,

I am pleased to learn of your interest in environmental science at the University of Dubuque. We'd love for you to come visit us and learn more about our program. The new science building is currently under construction, and we have established a cooperative program with the Audubon Center of the North Woods (<http://www.audubon-center.com/>). This January one of our students is heading there to study wolves and lynxes. In the Dubuque area are many opportunities for field studies and internships. For example, students have interned at the National Mississippi River Museum and Aquarium (<http://www.mississippirivermuseum.com/main.cfm>), and we have ongoing studies of stream quality at the Mines of Spain Recreation Area (<http://www.minesofspain.org/>), Swiss Valley Park (<http://www.dubuquecounty.com/Nature.cfm>) and the Mississippi River.

To learn more about our program and faculty, visit our web page at <http://www.dbq.edu/academics/envirosoci/evs.cfm>. My personal web page is at <http://www.geocities.com/DaleEasley>. Please feel free to email me with questions about the program or about visiting us.
